On-Site Construction Openings

Opening Width:
The construction opening width options are 80cm and 90cm.

Opening Height:
The height of the opening is measured from the ground to the top of the construction opening. The recommended height is 220 cm.

Wall Thickness:
The wall thickness ranges from 10 cm to 17 cm. Any thickness exceeding 17 cm will incur an additional charge for a crossbar with a 4 cm increment.

Electrical Points:
Electrical points must be positioned at least 15 cm away from the door opening.
