# The Collection

An innovative and modern design that has never been seen before.

A smooth matte finish, clean and unique door that will impress all.

Our customers are very attached to the term "modern".

In our initial meeting with a new customer, one common request is to plan and design innovative, modern doors.

They desire a home that is both beautiful and unique without compromising on quality.

# On-Site Construction Openings

## Opening Width:

The construction opening width options are 80cm and 90cm.

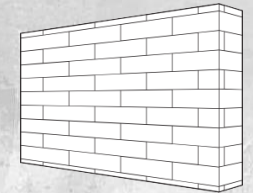

## Opening Height:

The height of the opening is measured from the ground to the top of the construction opening. The recommended height is 220 cm.

## Wall Thickness:

The wall thickness ranges from 10 cm to 17 cm. Any thickness exceeding 17 cm will incur an additional charge for a crossbar with a 4 cm increment.

## Electrical Points:

Electrical points must be positioned at least 15 cm away from the door opening.
